RESPONSE TO RESTRICTION REQUIREMENT

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

RECEIVED
MAR 11 2003
TC 1100 MAIL ROOM

In response to the restriction requirement set forth in the Official Action dated February 13, 2003, Applicants hereby elect, with traverse, the invention covered by Group I, Claims 1-14.

The restriction requirement is traversed on the basis that the search and examination of the invention covered by Claims 15-20 can be carried out without serious burden on the Examiner. That is, Claims 15 and 17 are directed to a method of air curing tobacco in a tobacco curing barn comprising an enclosure having the at least one vertically arranged air duct, the at least one in-line fan and the at least one operable and closeable opening comprising parts of the tobacco curing barn recited in Claim 1 (see amendments to Claims 1, 15 and 17 set forth in the Preliminary Amendment submitted concurrently herewith).

As set forth in MPEP §803, when an application may properly be required to be restricted to one of two or more claimed inventions, "[i]f the search and examination of an

entire application can be made without serious burden, the examiner must examine it on the merits, even though it includes claims to independent or distinct inventions." In the present case, it is submitted that the search and examination of the entire application can be made without serious burden since the features of the tobacco curing barn set forth in Claim 1 are also set forth in the methods of Claims 15 and 17.

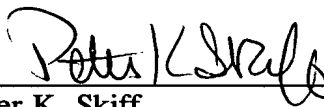

In view of the foregoing, early and favorable consideration on the merits is respectfully requested.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.

PRELIMINARY AMENDMENT

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

Prior to examination, please amend the above-identified application as follows:

IN THE CLAIMS:

Please replace Claims 1-15 and 17 and add new Claims 21-23 as follows:

1. (Amended) A tobacco curing barn, comprising:

an enclosure in which tobacco leaves and/or plants can be air cured;

at least one vertically arranged air duct, positioned in a central portion of said enclosure, said at least one vertically arranged air duct enclosing at least one in-line fan positioned in said at least one vertically arranged air duct;

at least one ventilating fan located in an upper portion of said enclosure; and

at least one openable and closeable opening in at least one side wall of said

enclosure.
